

Working with Funders

Case Study: Scottish Funders Forum

The Forum is an informal group. It brings together statutory and independent funders to share information, identify and address areas of common interest and share best practice and learning.

The Evaluation Declaration

1. Evaluation is valuable
2. Evaluation is relevant
3. Evaluation is proportionate
4. Evaluation is supported
5. Evaluation is about looking from inside and outside

ESS worked with the Funders Forum to help them draw up the Evaluation Declaration

The declaration does not have official status.

It demonstrates that Scottish funders are starting to share thinking about evaluation.

It should help the relationship between funder and funded organisations.

A copy of the Funders Forum 'Evaluation Declaration' is available from our website or from the Big Lottery Fund.
